Psychological Services
554 Parkway Drive
Hapeville, GA 30354

Fulton County Psychological Services offers a School Psychology Internship / Practicum Program for non-doctoral and doctoral students enrolled in accredited school psychology training programs. Fulton County comprises a diverse population of students and families with a full spectrum of psychological and educational needs. The Internship / Practicum Program provides prospective school psychologists a variety of field experiences working with this population under the personal supervision of well trained and highly experienced school psychologists. The program provides an opportunity to integrate knowledge acquired through coursework and practicum experiences into a coherent set of professional competencies. The internship program is designed to meet the internship standards of the National Association of School Psychologists (NASP) and the certification requirements of the Georgia Department of Education. The internship requirement is one academic year of full-time work (1200 clock hour minimum) and interns are paid \$175 per supervised evaluation.

Application Requirements:

- Letter of interest
- Resume' or vita
- Copy of transcript (internet version acceptable)
- Two current letters of recommendation (within one year; one must be from a supervisor)
- Two sample reports for intern applicants; one sample report for practicum students
- A copy of university related internship requirements and policies
- Interview, if necessary
