## SAT Online!

The state of Georgia offers high school students free access to the SAT Online Prep Course developed by the College Board. This online course gives students access to virtual preparation exercises, review quizzes and several practice tests. The practice quizzes and tests, including the essay portion, are scored and feedback is given directly to the student. Among Georgia's 2008 graduating seniors, the students who used the free SAT Prep Course scored significantly better on all portions of this important college entrance exam.
