

CAREER AND TECHNICAL EDUCATION DEPARTMENT

MISSION STATEMENT

Believing that students must be prepared to meet a lifetime of career challenges in the competitive global society, the mission of Centennial High School's Career and Technical Education Department is to ensure that students acquire core academic foundations, high quality technical skills, and career development in one of the following program areas: broadcast and video production, business and computer science, engineering, family and consumer science, health science, law and justice, and leadership training, instilling in students the necessity for life-long learning and outstanding achievement in the workforce and other post-secondary options.
