Teale Inventory of Multiple Intelligence

What an exciting guidance lesson!! CCES students are taking the TIMI to find out what their personal learning style is. Students are provided with 28 picture selections that represent each of the original 7 intelligences. Multiple Intelligence profiles help students become aware of their learning style, including the strengths and weaknesses. We are also discussing each learning style and strategies to use with each of them. TIMI results and intelligence descriptions will be sent home when completed.
