Cost to District (per hour): \$50

Program Summary:

A to Z In-Home Tutoring provides tailored, one-on-one instruction to students in the comfort and convenience of their home or parent location of choice. Our local, highly qualified tutors come to the home in person at times and days that are convenient for the family. As one of the largest national providers of No Child Left Behind tutoring, we are very experienced, yet have a personalized local approach to all we do. Students enrolled in A to Z programs experienced over five months in Reading gains and nine months in Math gains. Parents report significant student increases in self-esteem, behavior and attitudes toward school. In 2005, 97% of parents surveyed stated that if given a choice, they would again choose A to Z as their tutoring provider. Don't settle for less. One-on-one tutoring is what your child deserves and will make a difference in their life. A minimum of 10 students per district must enroll in order for the program to begin.

Cost to District (per hour): \$30-\$50

Program Summary:

Above Average Tutoring Program is designed to help Middle and High School students to increase academic achievement in Mathematics and Science. Our programs covers objectives that will positively improve test scores on the CRCT, GHSGT and End-of Course Test in Math and Science from courses such as: Basic Math Concepts, Pre-Algebra, Algebra I, Geometry, Physical Science and Biology. Our tutors will work with your child 1 hour per day, 2 times per week after school on Monday thru Thursday or 2 hours on Saturdays for 10 to 12 weeks and during summer months. Students will work in small groups up to 8 students using real world applications and hands-on activities and students will get one-on-one instruction. Resource Workbooks and Notebooks will be used for practicing objectives covered, to improve study and organizational skills. Sessions will be held at your child's or at Above Average Tutoring facility.

Min. Number of Students (each district):	No
Cost to District (per hour):	50

Program Summary:

Virtual tutoring (distance learning) over the Internet in the safe environment of your home is how your child will improve their academic performance at our company. Flexibility is offered as the parent arranges the sessions and the quantity will be approximately 30 one-hour sessions. Active students have achieved academic improvement over 96% of the time. For parents who do not have a computer and Internet, we will provide: A FREE refurbished LAPTOP computer and up to 4 months of Internet service. A technician will visit and install the computer and provide instructions on connecting and logging on. Both of these are free and the student will keep the computer as long as the parents agree to ensure their child logs on for a minimum number of hours. We do require the family to have a working phone line. Academia utilizes a diagnostic-prescriptive instructional approach to pinpoint student's strengths and weakness and tailor instruction to their needs. This is followed by generation of a customized curriculum that is based on the student's area of weakness.

Max. Number of Students (all districts):	250
Min. Number of Students (each district):	No Minimum
Cost to District (per hour):	\$40

Program Summary:

The Academic Associates reading instruction method takes the guesswork out of learning to read. It teaches reading skills in small, step-by-step increments that lead to complete reading proficiency. It is scientifically designed to work in conjunction with the brain to organize incoming data to insure that students learn faster and more efficiently.

Our program addresses the five critical areas that are known to lead to proficiency in reading. Students learn to: decode(read) the word, understand the word in context, evaluate the content, retain and apply relevant information, read with fluency.

Academic Associates' students develop all these skills simultaneously. Overall reading comprehension and fluency typically rise to the appropriate grade level or higher within 30 to 60 hours of instruction.

Patient, caring Reading Instructions Specialists
Every child succeeds regardless of learning difficulty

Min. Number of Students (each district): 50

Cost to District (per hour): 48

Program Summary:

Ace It! Tutoring was developed by Sylvan Learning Center, Inc. which has provided tutoring to more than two million students over 25 years. Our instruction is targeted to essential skills that make an impact on students' achievement in reading and math. The basic learning objectives of a grade level are covered in 30 hours of instruction. We offer small classes with qualified teachers in convenient community locations. Our sessions are held twice a week for two hours. Our program allows students the individual and group instruction needed to produce academic success. Pre and post assessments are conducted to identify skill gaps in each student. Last year, Georgia students in our program increased an average of 3/4ths of a grade level from pretest to the post test, and 77% of parents reported their child had better educational performance. Minimum program enrollment is 50.

Cost to District (per hour): \$50

Program Summary:

“Achieve HighPoints”, SES program from HighPoints Learning Inc, offers students a 60 Hours, 1-on-1 online math coaching program based on GA state curriculum that helps students retain & reinforce classroom learning, build strong math skills. This program is designed to help students achieve A+ grade in Math and high test score in CRCT & GHSGT tests. Each student is provided with an Internet-Ready computer at No cost to students to work from home. Students access the online program 24/7 from the safety & comfort of their own home. Each student takes his/her grade level diagnostic test and a unique Individual Student Plan (ISP) is formulated for him/her. Students work online for at least three (3) hours a week per ISP schedule at their own pace. Students are tutored through study notes, interactive step-by-step solutions and targeted assignments to fill achievement gaps. Key features include: • Differentiated instruction and immediate intervention for effectiveness • Grade level lessons aligned to the Georgia State standards at all time • Diagnostic testing and individual prescriptions with a flexible schedule • Performance analysis and guidance through reviews and reports • Step by step solution to every math problem • Students can also access “Achieve HighPoints” program from any internet ready computer including public library or school etc. • All those Students completing 60 Hours online session earn the right to keep computer as ‘program completion incentive’.

Program Summary:

AchieveResults™ students in grades K – 8 receive FREE instruction in mathematics or reading, after school. Because of our small group instruction, our tutors are able to identify and work on students' individual weaknesses, based on pre-test results. All instructional materials are provided. The AchieveResults™ Tutorial program meets 1 ½ to 2 hours after school, twice weekly at students' school (with principal's permission). Our program, which was developed by a university professor and former middle school math educator, has a proven record for improving academic achievement on the CRCT! Staff includes certified, special education, and English as Second Language teachers, university professors, and retired school administrators. FREE TRANSPORTATION at selected sites and snacks are provided.

Program Summary:

Achieve Success Tutoring is a company that teaches children the skills necessary to "Achieve Success". Our SES program specializes in identifying the skill gaps that students possess that are keeping them from reaching their full potential. We then design an individualized program just for that student and teach him or her with all the individual attention that students need and deserve to be successful. We offer incentives to students when we see them performing the academic skills that straight "A" students possess. When we see actions repeated such as on time attendance, studying for tests, finishing assignments in a timely fashion we reward them so you as a parent will see those actions repeated once they are finished with our program. So our program teaches not only reading and math skills, but those skills that "Achieve Success".

Program Summary:

ATS Educational Consulting Services – Project Success offers eligible students support in English language arts (including reading) and mathematics. We offer services online in the comfort and safety of the student's home by supplying students with a pre-programmed computer and dial-up Internet service at no cost. Once the student begins Project Success, he/she is assessed to determine the student's instructional level and learning objectives. Next, we set and adjust the curriculum to provide activities at the appropriate level. We encourage students to complete four one-hour sessions per week. Our staff monitors the student's progress online and follows-up with daily e-mails to the students and calls to their parents once each week. We also furnish parents with weekly written reports and work with schools and teachers to make sure the student's efforts in our program are helping them succeed in the classroom as well.

Cost to District (per hour):	40

Program Summary:

The Babbage Net School program is "the best of both worlds!" It allows the student to move as fast as their ability will allow or as slow as they need to achieve success. It also has a certified teacher providing help so every student is successful. This online program allows the student to receive their lessons at any time from any Internet computer. The student begins with a grade level test. After the test the student has a list of lessons on the topics they need to study. The student works on the colorful and interesting lessons until they feel the lesson is learned. A Mastery test checks to make sure the student knows the material before they move to the next lesson. The student can review the lesson at any time. And lessons can be added to help the student on topics they are working on in school.

Cost to District (per hour): \$60

Program Summary:

Back To Basics, Inc focuses on Reading, Language Arts, and Mathematics instruction for grades K-12. Our coaches work with your children one-on-one in your home or with small groups of no more than ten students in a non-competitive nurturing environment. We offer a computer-based academic assessment which specifically targets your child's current academic strengths and weaknesses. Each student will then receive customized instruction based upon their individual needs. Upon completion of our program, students have shown significant and consistent improvement, often times increasing academic performance by two letter grades. We typically schedule two 2-hour sessions per week. These sessions are scheduled at a time that is convenient for the student, parent/guardian and the academic coach. We provide tutoring services seven days a week. Our LEA requirement is a minimum of fifty students.

Program Summary:

B.E.S.T. (Best Education and Sports Today) offers academic and recreational activities to students in order to enhance academic achievement, improve behavior, build self-esteem, improve health, and enhance cultural development. Our staff has tutored over 4,000 students. Students have shown an 18% average increase in state reading scores and a 21% average increase in state math scores. We assess students at the beginning of the program to determine his/her strengths, weaknesses, and skill gaps. Parents and teachers discuss student test results and create Individual Education Plans (IEP's) for each child. We set clearly defined goals for students and give them incentives as they as they reach certain benchmarks. Students use games, graphing calculators, manipulatives, computers, and other instructional materials to simplify learning. We tutor students in small groups of 8 students to 1 teacher OR on an individualized basis with 1 student to 1 teacher. Tutoring sessions last 1.5 to 2 hours, meet 2-3 times per week, and occur after school, between 3:30 pm and 5:30 pm. We also provide quality, tutoring services on Saturdays and during the summer. Note: We request a minimum of 50 students in any 1 school district in order to serve that district.

Cost to District (per hour):	\$35-\$45

Program Summary:

ABOUT BRAINFUSE: Brainfuse is the nation's leading provider of one-to-one tutoring to schools, offering online tutoring in Math, Reading and Writing (grades 3-12). With Brainfuse, students receive individual attention from tutors through our kid-friendly online classroom – all that is required is a computer with Internet access. ONE-TO-ONE TUTORING SESSIONS: Sessions are typically one-hour, and are held generally 2-3 times per week. They can be scheduled at any time – day or night- 7 days a week. BRAINFUSE TUTORS: Our tutors are certified teachers and other highly experienced educators. All instructors possess at least a four-year college degree and undergo a rigorous certification process. EFFECTIVENESS: Brainfuse significantly boosts test scores and improves classroom performance. An independent study, conducted by Chicago Public Schools, indicates that students advance, on average, one grade level, after 40 Brainfuse sessions. LEARN MORE: Learn more about Brainfuse at: www.brainfuse.com Or call us toll-free: 1-866-272-4638. A minimum of 2 students per district must enroll in order for the program to begin.

Min. Number of Students (each district):	30
Cost to District (per hour):	\$40

Program Summary:

Bright Sky Learning provides top quality research-based reading and math instruction to students in grades K-12. Bright Sky Learning's program design is based entirely upon locating gaps in student knowledge through assessments and filling in those gaps by breaking down the skills necessary for each individual student to learn. The remediation of these misses, lower level skills results in the ability to learn higher-level skills, resulting in increased student level of achievement. Through the use of assessments and working with parents and schools, individual instructional programs are designed to meet each student's needs. Tutoring will be one-on-one for systematic phonics and from 5 to 10 on one for comprehension and vocabulary building exercises and for math instruction. Each instructional lesson will be from one to one-and-a-half hours long. Program monitoring is done on an ongoing basis to ensure the student is progressing. The program takes on average about 14-16 weeks.

Program Summary:

C2 Educational Systems provides individualized tutoring to K-12 students in all academic areas. Each student is assessed prior to enrollment to determine strengths and weaknesses and to establish a customized program of instruction. Instruction is then delivered in 2-hour sessions by a highly qualified tutor with no more than 3 students per tutor. C2 offers tutoring after school Monday-Thursday and all day Saturday. C2 has an extraordinary track record in raising student achievement, helping all its Georgia students pass their state exams, boosting grade point averages and SAT scores. Instruction is tied to Georgia Performance Standards and can include school assignments. Each center is conveniently located in a shopping center and is full equipped with all necessary curriculum materials and supplies.

Student\Tutor Ratio: 8-1 non-computer/10-1 computer

Max. Number of Students (all districts): 1500

Min. Number of Students (each district): 8

Cost to District (per hour): \$50.00

Program Summary:

Carter, Reddy & Associates utilizes Reciprocal Teaching strategies to tutor students in reading and mathematics. In reading, depending on their age and skill level, they receive tutoring in phonics, phonemic awareness, vocabulary skills, comprehension, and oral reading fluency. English language learners receive tutoring based on their competence with English language.

In mathematics, students are tutored in specific areas based on their needs: whole numbers, numeration, fractions, decimals, percents, geometry, pre-algebra, measurement, etc. They learn specific problem-solving strategies that help them maneuver mathematical equations.

Students are tutored in small groups for 20-23 sessions lasting one-two hours. After school session times range from 3-7pm. Potential facilities include homes of students, students' school(s), community centers, faith based centers, libraries, and C & R sites.

The techniques we employ have been validated and deemed effective by reading and learning research, and studies have shown that students improve in as little as 20 days of tutoring.

Max. Number of Students (all districts):	No
Min. Number of Students (each district):	30 per LEA
Cost to District (per hour):	Not to exceed \$95

Program Summary:

Catapult Online is America's leading provider of live, personalized, at-home tutoring. Our programs in math and reading use individualized, direct instruction to address students' specific needs. Students take an online assessment at the beginning of the Catapult Online Program to determine their individual skill gaps. Assessment scores are used to develop a Student Plan, containing a list of skills and goals that a student will aim to achieve during our program. Catapult Online offers flexible scheduling, with sessions available seven days a week. Students typically complete 2-4 one-hour sessions per week. Students gain an average of more than one grade level in reading or math after completing 20 hours of instruction. Instruction takes place on a free computer provided by Catapult Online. Computers are "locked" only allowing access to Catapult Online until the program has been completed. After successfully completing the program, students earn the right to keep their computer. A minimum of 30 students per district must enroll in order for the program to begin.

Specialty Languages, if any?
Subject(s) Served: English, Mathematics
Grade(s) Served: 5-8
Student\Tutor Ratio: 4-1
Max. Number of Students (all districts): 100
Min. Number of Students (each district): 14
Cost to District (per hour): \$40.00

Program Summary:

Challenging Failure is an instructional program using research proven materials and instructional approaches proven effective in helping students remediate their deficits and make academic progress. Each student is assessed to determine where the academic deficits are and develop an individual achievement plan based on the appropriate grade level performance standards. Often when students have reached the middle school level and are still not experiencing academic success, it is because they did not learn or mis-learned a critical step or concept. Once that missing piece is learned or relearned correctly, progress is accelerated because student motivation is increased.

After 4 weeks of instruction or at critical points of instruction, students are assessed again to determine their mastery level and to chart progress toward GPS standards. Parents are given a progress report along with work samples to show what their student has learned and where that places them in relationship to GPS. The methods and programs (SRA-Reasoning and Writing and Moving with Math) provided have a documented history of success especially when combined with hands on activities that link the concepts in isolation to practical application thereby creating permanent learning.

Each group of no more than 4 students per teacher will meet for 2 hours per day once a week in order to keep concepts connected and to provide enough time for multiple presentations and practices of the same concepts as needed.

Min. Number of Students (each district): 20

Cost to District (per hour): \$70

Program Summary:

CKL provides after-school and weekend tutoring in Reading/Language Arts and Math to grades K-12. Small groups (1-5 students) work with a tutor on their Individualized Educational Enrichment Plan. Plans take information using (1) previous standardized scores, (2) curriculum-based pre-tests (3) recommendations from the home room teacher and (4) parent input. Each student's plan is unique, emphasizing subjects and skills that the student needs to develop. For each subject, a clearly defined set of weekly skill-building goals is established. Students meet one or two times per week (1-2 hours per session) at their school or nearby locations (faith-based or community center or libraries). The program combines individualized instruction, ability grouping, and periodic assessment among other proven education strategies. Program goals are to increase student performance in key areas and build confidence in the ability to learn. CKL has a strong history of documented test score improvement and student success.

Cost to District (per hour): \$45-\$65

Program Summary:

Club Z! Tutoring is the world's largest and most successful one-on-one in home tutoring company. Our program focuses on giving every student individualized attention. Students can choose from one-on-one tutoring, as well as small group instruction. The maximum student/teacher ratio for Club Z! small group instruction is 8:1. Both of these educational models are proven effective through scientifically-based research. Club Z! utilizes the Kaufman Test of Educational Achievement (KTEA), The Math Level Indicator, and the Reading Level Indicators as assessments. Student goals are set in accordance with pre-assessment results, conferences with parents, conferences with classroom teachers, state curriculum standards, and each student's local curriculum. On average, students who complete our program will see an increase in grade level equivalency of at least 1 grade level. On average, each Club Z! session lasts 1-3 hours and are held 1-4 times per week. Session time and length is customized for each student's needs. Instructional materials are directly correlated with Georgia State Standards. Materials may include lesson plans, worksheets, workbooks, newspaper, current event related topics, etc. A minimum of 5 students per district must enroll in order for the program to begin.

Program Summary:

Community Reach Inc. (CRI) is a high-quality, research-based instructional tutoring program. We have found in our eleven years of tutoring and working with students, that student must master the basics of math and reading in order to be successful in other content areas. CRI uses small groups of students to work on activities, problems and assignments; this will increase student mathematics and reading ability. CRI has found a minimum of 98% success rate with at risk and students with disabilities that complete our program, in the areas of Reading, English/language arts, Math, improvement in Attendance, Promotion Rates, Graduation Rates and Discipline which results in a positive impact on course grades. CRI sessions are 1 to 3 hours 2 days a week, students have a choice of attending sessions before school, after school, or on Saturdays, transportation is provided. We provide all instructional materials and supplies for our students, our instructors are highly qualified and motivated to teach.

Cost to District (per hour):	\$59

Program Summary:

Data Friendly is a technology focused education company that offers unique and exciting education program to a minimum of 24 students per site. We provide Reading and Math tutoring to K-12 students and also provide Special Needs and English Language Learner tutoring. We provide tutoring after school 2 days per week at 2 hours per session or on Saturday's for 4 hours. We work to develop your child's study habits, test taking skills, reading and math abilities and writing skills using standards based and proven curriculum developed by prentice hall. In our program we identify the student's area of need, we develop an education plan design specifically to improve those areas of need, we used trained tutors, and we work closely with the school and parent to insure alignment. Parents and schools receive weekly updates and we offer a comprehensive test preparation course to prepare students for the standardized state test. In most cases, our tutoring takes place right at the child's school, however we do offer training at remote sites as well as distance learning.

Min. Number of Students (each district):	2
Cost to District (per hour):	75

Program Summary:

The Dyslexia Institutes of America provide evaluations and literacy training services to dyslexics. The evaluation segment consists of a battery of thirteen diagnostic tests to determine if dyslexia is present, the type and severity of the dyslexia and provide a basis for a therapy program. The therapy segment consists of programs developed for each individual (based on the diagnosis) that address both the cognitive and phonetic issues associated with dyslexia. Each individual program consist of 1 two-hour in clinic therapy session per week and 30 minutes of consistent home reinforcement (not teaching). All components of the therapy plan will be specific, measurable, action oriented, realistic, relevant and time specific. Only after an individual masters a certain level or sequence will they be allowed to progress to the next level. This "Mastery" allows the dyslexic to build on a solid cognitive and phonetic foundation and leads to independence.

Cost to District (per hour): \$45-75

Program Summary:

Education Station provides small group instruction for students in grades K-12 who are functioning at instructional levels K-8 in reading and 1-8 in mathematics. Students complete a pre-assessment which determines individual skill gaps, guides placement for instructional groups, and creates an individualized Student Plan. Our intensive research-based reading and math programs deliver results; students who received at least 20 hours of instruction in 2005-2006 showed gains of 44 scale score points in reading and 49 scale score points in math between pre and post-assessments. Most students will receive 2 or more, 60-90 minute sessions each week delivered at school sites, after the regular school day. Our small groups consist of a targeted Student/Instructor ratio of 8:1. We require the following minimum student enrollments 75 students per site for Bibb, Chatham, and Richmond Counties; 85 students per site for Muscogee County; and 48 students per site for all other counties.

Subject(s) Served: Reading, English, Mathematics

Grade(s) Served: K-8

Student\Tutor Ratio: 8:1

Max. Number of Students (all districts): 4000

Min. Number of Students (each district): 15

Cost to District (per hour): \$50

Program Summary:

We primarily tutor children in small group following a cooperative learning approach. Students are assessed prior to instruction using the Gates-MacGinite reading test 4th edition as well as a screening by Kathy Ganske, Word Journeys. For Math, we apply the Georgia Department of Education online assessment tool published by The Riverside Publishing Company at www.regionq.georgiaoas.org. Following the assessments, we meet with the student and parent and ideally a school representative to devise an Individual Achievement Program where we identify learning goals, timelines, and reporting dates. A minimum of 15 students per district must enroll in order for the program to begin.

Min. Number of Students (each district):	8
Cost to District (per hour):	\$25.00

Program Summary:

Educational Tutorial Services provides in-home tutoring services in reading, English/language arts, and mathematics. Services are available after school, on weekends, and during the summer. Group tutoring is limited to 8 students at a time. The cost is \$25 per hour, per student with a minimum of 8 students per LEA. Through a combination of customized supplemental materials (aligned to Georgia and district's content standards), sound teaching methods, and individualized learning plans, E.T.S. helps students measurably improve academic performance.

Teachers map instructions to learning needs and improve student achievement. Our pre and interim assessments by Pearson and Scholastic are designed to forecast student growth toward performance standards. They measure student progress and tie assessment to classroom instruction. Quantile measurements are used. It is our goal to provide tutoring assistance to all under achieving and low performing students to develop essential skills to meet content standards in reading, language arts, and mathematics.

Cost to District (per hour): \$65.00

Program Summary:

EduTech Cognitive Therapy provides free on-line and off-line tutoring in reading and mathematics to K-12 students. Our tutoring program utilizes a variety of effective techniques that are proven to help increase the academic achievement levels of all students, including those with special educational needs (e.g., LD, ADHD, ADD, Dyslexia, at risk for failing, and ELL-Spanish-speaking).

Our highly-qualified tutors service students in schools, churches, or in the home; and many are Sp. Ed. Certified. Students attend up to 4 hours per week, after school, weekends, also summer, and they receive a total of 32 hours of high-intensity tutoring in one-on-one or small group sessions. Tutors diagnose each student's needs, and prepare individualized learning plans that utilize direct tutor instruction and computer-based programs, designed to help increase academic achievement, and improvement learning and memory skills. Monthly progress is reported to parents and skills growth is measured at the end of the program.

Program Summary:

Our program will use Direct Instruction, high participation, high interest curriculum materials. Assessments include pretest, posttest, and formative assessments. Pretest information is used to determine student's areas of weakness and to formulate the goals of the individual student plans.

Our program in Florida had a positive impact on 93% of the students who completed the program for reading/language arts and mathematics. 93% showed academic improvement. 91% demonstrated improved or good attendance. 95% demonstrated improved or good conduct and behavior.

Currently, 98% of the students have met the goals of the Individual Student Plan (ISP). 90% of the students who completed the program reported a positive impact. Tutoring sessions last up to two hours immediately after-school twice a week. Weekend tutoring is also up to four hours per weekend session. Tutoring sessions will be held at the school and curriculum materials will be provided.

Min. Number of Students (each district):	8
Cost to District (per hour):	\$50

Program Summary:

eProgress Academy uses MySkills Tutor, a research based curriculum software for both reading and mathematics, to deliver engaging instruction that challenges students. The first 10-15 minutes of each one hour session are spent introducing information to students. Then after logging in to MySkills Tutors students complete lessons that have been assigned based on pretest scores. During that time tutors address any confusion the student might have about the content. The last 5-10 minutes are used to discuss student progress with parents. Prior to sessions eProgress tutors gather information about the student's areas of weakness from the classroom teachers and parents. Tutors then set learning goals to be met during tutoring. At the first session students take a pretest to help tutors create the students curriculum. Online and in home tutoring options are available. A minimum of 8 students within one district is required for in-home service in any district.

Program Summary:

Failure Free reading is a research-proven language development, fluency and reading comprehension program founded in 1988. It has been implemented in thousands of schools across the United States with tens of thousands of students. FFR specialized in non readers, students receiving F's and special education. Failure Free reading always attempts to hire certified teachers with a special ed background. Services are delivered in small group instruction, using its award winning talking software instruction that turns the computer into a personal reading coach. Paper and pencil individual reinforcement workbooks and independent reading booklets are also included. Failure Free Reading is typically delivered in one-hour sessions, twice or more a week. An individualized pupil education plan is prepared for each student. Parents are notified of their child's progress on a regular basis and in a way that they can understand. A final report is submitted to the district at the end of services. A minimum of 5 students per district must enroll in order for the program to begin.

Cost to District (per hour):	\$35-\$55

Program Summary:

Graham Consulting Group tutorials incorporate an intense focus on innovative and effective teaching and learning techniques, continuous assessments, and parental involvement. Our tutorials increase student academic achievement by providing a detailed curriculum that will drive students to mastery in the following areas: Reading, English, and Mathematics. Students are tutored in one-on-one/small group settings following an instructional plan based on their strengths and needs. Our tutorials have shown positive academic growth. For example, 90% of all students who have enrolled in our SAT/ACT preparation tutorials have achieved an increase of at least 200 points on their future standardized exams. In addition, 85% of all students who have participated in our Georgia High School Graduation Test tutorials have attained a minimal passing score in all subject areas. Moreover, 92% showed improvement in reading comprehension, 95% showed improvement in math. We require a minimum of 4 enrolled students for each participating LEA.

Number of Students (each district): 7 Cost to District (per hour): \$50	
---	--

Program Summary:

Our tutorial services are interactive and focus on the core academic subjects of Reading, Mathematics, and Language Arts for grades 1 through 8. Our instruction will emphasize skills to help all students achieve school success and pass promotional test objectives that the state requires. Certified teachers and highly qualified tutors will work with students on a one-on-one basis and in small group settings to ensure student success. Our program offers personalized student learning plans, innovative and unique techniques to reach students, access to computer based learning, comprehensive assessments, bi-weekly and monthly progress reports to parents and teachers, on-going evaluations, and nutritional snacks. Tutorial services will be held at the Greenforest-McCalep Academic Center which is convenient, safe, and conducive to learning. The tutorial schedule will include a Saturday, three-hour tutorial session from 9 a.m. until 12 noon. Our tutorial instruction and educational materials are consistent with Georgia's QCC and Performance Standards as well as the National Reading Panel (NPR) and the National Council of Mathematics. Our instructional techniques have been successful in helping students at a low-achieving Metro-Atlanta school pass the CRCT (standardized test) that resulted in the school being removed from the list of schools not making the state's Adequate Yearly Progress (AYP). A minimum of 7 students per district must enroll in order for the program to begin.

Program Summary:

The Provider's approach or model of instruction involves flexible grouping, that is, whole group as well as small group instruction based on needs of targeted student. The pupil-teacher ratio will be 1 to 8 for low-income and underachieving students and 1 to 5 for students with disabilities. Assessment includes comparison of pre and post test results to identify skill gaps, and goal-setting procedures involve prescription of appropriate instruction to increase reading proficiency. Furthermore, in enhancing the effectiveness of the instructional program, the Provider will employ hands-on, minds-on manipulative activities to improve targeted students' reading proficiency. Having a minimum of 100 students committed for tutorial service, the Provider will use LEA facilities to administer 1 hour tutorial sessions, 2 or 3 times a week totaling 17 sessions per student. The Provider will furnish all instructional materials.

Program Summary:

The National Reading Panel research fully supports the fundamental concepts and instructional design of the materials we use. With over 20 years of experience, our mathematics program meets the most rigorous academic content standards with proven results and ensures universal access to both high and low achieving students. The model of instruction is taught by qualified instructors some with graduated degrees. The session agenda includes implementing the student learning plan that is aligned with state standards and is established by reviewing the academic record, diagnostic test, teacher evaluation and parent/guardian recommendations. Over 90% of students have increased their SAT/ACT test scores by 200 points, 86% increased state test scores by over 20 points, 90% showed improvement in reading comprehension, 93% showed improvement in math, while 89% improvement their academic grades. Class sessions are conducted at various site locations with limited in-home instruction available. Monday-Thursday 3:00pm- 8:30pm and or Saturday 9:00am- 3:00pm; once or twice per week. We require a minimal of 4 students for each LEA/school district.

Program Summary:

Our onsite and computer based after school program provides meaningful learning experiences for students in language arts, mathematics, science, and world languages. Our program provides immediate feedback for our tutors, students and parents. Teachers and school leaders are also able to monitor student performances for a coordinated approach to improving student academic achievement. Students completing the onsite tutorial program and parents attending 4 tutoring sessions will receive a free home computer. Students will also be allowed continued access to our online curriculum for 1 year. IASP operates programs at local schools with at least 10 students enrolled into the program. We also operate Saturday programs to service students from surrounding local area schools. Our strictly computer based program is available to all students and the flat rate approved by the Georgia Department of Education applies to those parents selecting that option. Students are provided their computers upfront and instruction is through distance learning.

Program Summary:

Headquartered in Atlanta, the Brain Support Division of JT Carroll & Associates, LLC is an organization designed to act as a resource for skills intervention by providing additional instructional support outside of the regular school day. Our program assists students in grades Kindergarten through 12 with research-based resources aligned with with Georgia Performance/Quality Core Curriculum and national standards. Differentiated instructional methods are utilized to accommodate individual learning styles.

Individualized student needs and goals are ascertained via pre-assessments to maximize each instructional session to remediate and enrich every student's academic skills. Brain Support provides all instructional materials. The number of weekly sessions are determined by both the pre-assessment and parents. On average, sessions are two (2) hours in length and take place twice per week, or once per week on Saturdays for three (3) hours.

Cost to District (per hour): \$40.00

Program Summary:

The Key Enhancement Learning Center (KELC) provides high quality, research-based tutoring that is designed to increase student achievement. We help students reach their potential by building on strengths, remediating skill deficits and utilizing strategies that help encourage academic and social success.

Key Enhancement specialize in helping children master academic skills, get better grades, achieve higher standardized test scores, and gain the confidence and motivation needed to succeed inside and outside the classroom. Our instructional strategies include: Individualized One to One Instruction, Small Group learning, Peer Tutoring and a Positive Learning Environment. Students are tutored Monday thru Thursday after school for two hours each day, weekends from 8:00am - 12:00pm., and during summer Monday-Thursday for 4 hours each day.

Key Enhancement also utilizes computer-base assessments, and tutorials such as AAA Math, RHL School, Teach-nology, and Reading Comprehension Connections. In addition, Key Enhancement utilizes the Criterion Reference Competency Test (CRCT) tutorial websites.

Min. Number of Students (each district):	24 per LEA Facility; No minimum at provider's facility
Cost to District (per hour):	\$35-\$46

Program Summary:

KnowledgePoints' director is a certified teacher who has been extensively trained. We begin with a battery of diagnostic tests, pinpointing each student's specific needs. An individual plan is written from our library of more than 20,000 lessons from nationally recognized publishers including McGraw-Hill. Each student's unique plan is reviewed with the parent to establish goals. Students attend between 2 and 4 sessions weekly. Each session is one hour in length, offered after school Monday through Thursday, with no homework. There are 3 students/tutor. Our motivational system provides positive reinforcement. Individual learning is reviewed and updated after every session; when a student masters a new skill, they immediately move up to the next level. Parents are updated at least biweekly, and teachers and the school district, monthly. Dr. Litzenberger's 2005 study showed our program is highly effective for students of all ethnic and gender groups. There is no minimum at KnowledgePoints' site but a minimum of 24 students per district must enroll in order for the program to begin at a district site.

Program Summary:

Kultivating Brilliant Minds provides IN-HOME, ONE-ON-ONE tutoring services to 1st – 6th graders in Reading, English, Language Arts and Math, and at least 30 hours of instruction to achieve the greatest increase in skills improvement. Each week, from 1½ - 3 hours of tutoring is offered after school, on weekends, and during Spring Break. Summer tutoring is also available to help students keep school year gains. Our program is aligned to national and state educational standards and services for success include: personal attention from our professional tutors; diagnostic testing to identify specific academic needs and develop individualized learning plans; and assessment throughout the tutoring process with changes to the plan as needed. Students receive immediate and continuous feedback, and their progress is tracked and reported monthly to parents. Tutors works together with the student's teacher, and also mentor/coach students and parents on the learning process.

Program Summary:

Laureate Training Center, Inc. will ensure that each student is provided an ample opportunity for skill development along with advanced competencies. All staff members of Laureate Training Center, Inc. currently hold approved qualifications to maintain Approval status as a Supplemental Education Service Provider. The program to be implemented as a supplement to the local school curriculum will be Saxon Math K-12, Saxon Phonics & Spelling K-12 and Kansas Writing Strategies-Language Arts. Laureate's use of the Saxon Math, Phonics/Spelling, provides detailed correlation to GPS and Georgia's Quality Core Curriculum standards for each grade level. Once targeted areas are determined an instructional program will be prescribed. Student progress will be tracked at every session with the student through skill checks. Laureate Training Center is a statewide provider and requires a minimum of 100 students outside the Atlanta area. Tutorial Hours are as follows: Monday-Friday 3:30 pm-7:30 pm (In-Home Setting or In-School Setting), Saturday sessions will be held at Provider's site from 10:00 am-1:00 pm.

Cost to District (per hour): \$60

Program Summary:

Learning Essentials provides services for students in grades K-8. Our main goals are to help students improve Reading, English/Language Arts and Math skills; reach grade level; enhance their educational performance in school. We use an explicit, intensive, tutor-directed method of teaching that carefully articulates lessons ensuring consistency needed to replicate high levels of achievement in every classroom. Each child is given a pre-assessment used to develop a performance plan for that student. The plan is submitted to the parent/legal guardian for review. We begin tutoring the student once the parent/guardian has reviewed and signed the performance plan. A post-assessment is given at the end of the agreed upon sessions to chart the student's progress. Tutorial sessions are three days per week and two hours per session. Sessions are held: after-school (3:30PM - 6:00PM), Saturdays (9:00AM - 12:00PM), and summers (8:00AM - 12:00PM). Summer sessions are weekdays only. We provide instructional materials.

Program Summary:

The MORE Learning Center is an organization designed to provide supplemental tutoring assistance to children from Kindergarten to eighth grade. The company aligns a student's daily instruction to after-school instruction that serves to both remediate and enrich the student's academic skills. Focused teaching will provide each student with an individualized program of study designed to move the child forward. The MORE Learning Center uses guaranteed and viable curricula that have been scientifically proven to increase student achievement. The methods utilized are aligned to Georgia Performance Standards. All instructional materials are provided by the tutorial service. Tutoring sessions last approximately two hours per day for two days a week. Instruction takes place at participating school and community sites located within Georgia. A minimum of sixteen students is required for services to be rendered at eligible school sites/local communities.

Program Summary:

Mainly Math specializes in providing expert instruction geared specifically for your child. I currently do most of the tutoring on a one-on-one basis. I hold a Master's degree in Education, taught high school math, tutored for over 20 years, and scored in the top 1% on both the math SAT and math GRE (800-perfect score). I've also successfully completed the "Georgia teaching of reading" course and have helped hundreds of children improve their reading skills. My research-based teaching methods have been proven to increase test scores, improve SAT scores, and raise class grades. Tutoring is usually for an hour once a week in your home or if preferred a local community center or participating school. our goal is not only to improve your child's skills and understanding but to also instill confidence and a love of learning. We specialize in math, reading, language arts and social studies.

Cost to District (per hour):	45

Program Summary:

Math & Reading Wizards is a tutorial program based on the use of worksheets that incorporate basic Math & Reading techniques. Each student is given an initial pre-assessment test in both math and reading. Next the student's achievement goal is tailored according to his/her assessment scores. Our program has a 95% proven effectiveness rate. By building upon the foundation established in schools, we are able to utilize repetition and basic conceptualization techniques that can be transferred in short 1 hour sessions twice a week immediately after school. Available for grades k-12, our services are given in home, local schools, and community centers. Traditional paper and pencil skills are emphasized through out the program but are supplemented by outside reading, flashcards, and other technology components. Outside metro Atlanta, a minimum of 10 students per district must enroll in order for the program to begin.

Min. Number of Students (each district): 10

Cost to District (per hour): 35

Program Summary:

Mathnasium is a learning center where kids go after school to boost their math skills. We are highly specialized; we only teach math. Our program is for kids in grades PreK through 12. Students attend once or twice a week, for about 90 minutes. At the center they receive one on one instruction from teachers in a group environment. Our goal is to significantly increase a child's math skills, understanding of math concepts, and overall school performance, while building confidence and forging a positive attitude toward the subject. The Mathnasium program correlates on for one with the Georgia Content Standards for math. Mathnasium used a combination of guided practice, manipulatives and the latest computer software.

Program Summary:

NetTutor™ is web-based, allowing students to use their own computer to access learning materials in a non-linear fashion or in real-time with live tutors. Parents and divisions are provided with the tools needed for easy management of and reporting on student attendance and curricular progress through our Parental Notification technology. Upon enrollment, students take an initial Pretest on their entire grade-level curriculum in Mathematics. A set of individualized goals – a series of Lesson Plans – is created for the student, designed to bring him/her from their current understanding of the curriculum to the division/parent goals. A schedule is created for each student such that a total of 30 instructional/tutorial session hours in Mathematics is scheduled @ 1-unlimited hours per week. NetTutor™ SES tutors are available after school hours (3pm – 9pm EST Monday – Friday) during the academic year. NetTutor™ users, on average, increase their achievement test scores by one letter grade.

	Cost to District (per hour): \$70

Program Summary:

Next Level Learning provides after-school and weekend tutoring in Reading/Language Arts and Math to grades K-12. Small groups (1-5 students) work with a tutor on their Individualized Educational Enrichment Plan. Plans take information using (1) previous standardized scores, (2) curriculum-based pre-tests, (3) recommendations from the home room teacher and (4) parent input. Each student's plan is unique, emphasizing subjects and skills that the student needs to develop. For each subject, a clearly defined set of weekly skill-building goals is established. Students meet one or two times per week (1-2 hours per session) at their school or nearby locations (faith-based or community centers or libraries). The program combines individualized instruction, ability grouping, and periodic assessment among other proven educational strategies. Program goals are to increase student performance in key areas and build confidence in the ability to learn. Next Level Learning has a strong history of documented test score improvement and student success.

Min. Number of Students (each district): 20

Cost to District (per hour): \$60

Program Summary:

Pinocchio Palace assures that services are consistent with the instructional program of the local school district, with Georgia's Core Curriculum and with the Georgia Standards and Performances. The instructors are certified teachers, para-professionals, and college students who are trained to use AGS materials along with a variety of other materials (Spectrum, Series, Creative Teaching Press-Advantage, Soaring Scores for Georgia-Steck-Vaughn Berrent, Langauge, and Touch Math) that use activities to build skills and comprehension while preparing the student for standardized tests. Students' weaknesses and strengths are identified through a diagnostic approach assessing reading, mathematical, and language arts skills to determine the student's educational plan of remediation and enrichment. We offer diagnostics with scores. Reliable testing and retesting capabilities are available with pre and post norms. Accommodations for students with disabilities will be considered with the suggested modifications of an I.E.P.-such as extra time, readers, multiple testing sessions, direction clarification, magnification, etc.

Program Summary:

PE & C has qualified instructors that will develop a schedule as well as an academic program that is conducive for all stakeholders. Our ability to serve students 7 days per week allows for the student as well as the parent to continue with their day to day activities such as work and school. Our home based program allows parents to relax and not be concerned about traffic, crowded learning centers, negative peer pressure, scheduling conflicts, and disruptive environments. This home based approach has successfully raised 85% of the students in the program's test scores. not only does this one on one approach aid in raising test scores, it also gives the students more confidence and self esteem as it pertains to the overall classroom environment.

Program Summary:

Students are given a preliminary skills assessment to determine their current level of functional proficiency. A conference is held with the parents to review the results of the testing and to introduce them to the individualized program of instruction we have developed for their child. Instruction is done by certified teachers who currently work in or are retired from the area school systems. Students are taught in very small groups of 3 students to one teacher for grades 4 and above, and 1 on 1 instruction for students in kindergarten through 3rd grade. The child attends the program 1.5 hours, 2 days a week, for a total of 3 hours a week to receive individualized instruction in reading and math. The program has been very successful at improving the reading and math skills of all of the students, assisting students in passing CRCT exams, and increasing the self confidence of the student. The facility is newly constructed and provides a spacious learning environment for all students.

Program Summary:

The Reef House After-School Program offers children the opportunity to boost their grades in reading, math, and science by participating in a uniquely active learning experience. Using Georgia Performance Standards (GPS) measured by the CRCT and GHSGT, our students receive individualized learning goals and objectives and participate in two-hour work sessions, twice per week or more (as needed). Snacks are provided to all students, transportation is available for select schools, and incentives are given for outstanding performance. Special success has been achieved at Reef House After-School Program and we believe that education is vital to a successful future.

Serves Students with Disabilities?	Yes
Serves Students who are English Language Learners?	No
Specialty Languages, if any?	No
Subject(s) Served:	Reading, English, Mathematics
Grade(s) Served:	K-8
Student\Tutor Ratio:	3-5:1, 1:1 for special needs
Max. Number of Students (all districts):	200
Min. Number of Students (each district):	8
Cost to District (per hour):	\$52

Program Summary:

Our program provides a holistic approach dealing with the child's academic needs as well as their social, physical, and developmental growth. Students are assessed upon entrance into the program with a pre-test. "After-tests" are administered to measure student performance at a midpoint as well as at the end of the program. Each student receives tutoring in needed areas based upon the initial diagnostic assessment. The students' regular teachers identify specific program areas with which individual students need assistance. Students who took both pre- and after-reading assessments improved one grade level based upon their CRCT scores and the assessment tools provided with the instructional materials. The majority who completed our program performed with a 95 to 99 percent success rate. Upon entrance into the program, the students receive at least 2 sessions of tutoring per week (45 minutes each session) in the areas of need. Additional time is spent each week on enrichment activities that further reinforce the tutoring sessions. Our program operates in a clean and safe community learning center located adjacent to the school systems served. Our organization provides transportation with our own bus and appropriately credentialed drivers. Instructional materials for reading and English are Scholastic's After the Bell and Sprint Reader. Math instruction uses Glencoe's Intervention for Middle School Mathematics.

Program Summary:

Pryor Road Community Redevelopment Corporation d.b.a. Saint Paul Leadership Academy is designed to establish a high performing partnership between the community, church, and schools. The goal of the program is to enhance the learning and educational study habits of students within the community. Saint Paul Leadership Academy offers programs that will focus on achieving higher test scores and academic tutoring services in reading, mathematics, and language arts, while incorporating technological competence and leadership skills. Specific milestones are established and will be monitored throughout the program to insure that the students and parents will increase participation and literacy levels. The program includes two hour sessions three times a week which will focus on reading recovery and mathematics skills that contribute to towards academic gain. Technology is a rapidly growing industry; therefore, we have incorporated our computer lab to enhance students' technological skills.

Number of Students (each district): 24 per LEA Facility; No minimum at provider's facility Cost to District (per hour): \$35-\$46	
---	--

Program Summary:

KnowledgePoints' director is a certified teacher who has been extensively trained. We begin with a battery of diagnostic tests, pinpointing each student's specific needs. An individual plan is written from our library of more than 20,000 lessons from nationally recognized publishers including McGraw-Hill. Each student's unique plan is reviewed with the parent to establish goals. Students attend between 2 and 4 sessions weekly. Each session is one hour in length, offered after school Monday through Thursday, with no homework. There are 3 students/tutor. Our motivational system provides positive reinforcement. Individual learning is reviewed and updated after every session; when a student masters a new skill, they immediately move up to the next level. Parents are updated at least biweekly, and teachers and the school district, monthly. Dr. Litzenberger's 2005 study showed our program is highly effective for students of all ethnic and gender groups. There is no minimum at KnowledgePoints' site but a minimum of 24 students per district must enroll in order for the program to begin at a district site.

Program Summary:

Solid Rock Academy is a licensed, SACS accredited school. The program of service offered is consistent with the instruction program of the LEA's and the Georgia Performance Standards.

For the SES Services, the Academy reviews students' records and develops an individualized tutorial program meeting the specific needs of each student to increase academic achievement.

Specific achievement goals are outlined for students in consultation with the LEA's and their parents.

Progress reports are provided bi-monthly to LEA's, teachers and parents. The reports are language appropriate and describe the extent to which student's goals and objectives have been mastered.

Tutoring sessions includes (2 subjects (Math and Language Arts); 2 hours each; 2 times per week). After school sessions range from 3:00pm -7:00pm. Saturday session from 8:00 a.m. - 12pm. Summer sessions are 8:00am - 6:00pm

Our facility, equipment and materials encourage active student participation using current websites from textbooks as well as virtual websites. The Computer-Assisted Instruction produces higher achievement and lasting retention, and allows teacher-student interaction and interaction with web-based materials.

---	---

Program Summary:

Sunshine is a standards-driven SES provider that pretests all students at program initiation. Based on students' performance on these assessments and their prior academic records, students are placed in optimal (instructional level) tutoring groups with no more than 5 students per tutor. Students' goals are established at program inception with input from the parents and school stakeholders. Sunshine has been successfully providing academic support and remediation to children in Title I schools since 1992. The agency has had great success (typically 90+ percent of the students serviced yearly showed significant gains) at helping students improve their academic standing as documented by standardized state assessment results, school data, and Sunshine's pre and post assessment results. The tutoring sessions are typically scheduled two times weekly for a period of 1.5 hours per session. However, scheduling is kept flexible to accommodate parents' diverse needs. All instructional materials are provided to each child by Sunshine. A minimum of 9 students per school site and/or 19 per district site must enroll in order for the program to begin.

Cost to District (per hour):	43.5

Program Summary:

Sylvan Learning Center has been providing tutoring to more than 2 million students over 25 years. Our instruction is based on individual students' academic assessments. Based on the results of these assessments, we design a program that highlights and addresses an individual students' academic needs. Then once we have determined the specific academic needs of a student, through mastery learning we remediate skill gaps. Our materials encompass a wide variety of research based and nationally recognized books, hands-on manipulatives and computer software. We meet with parents at least once a month and discuss their child's growth and progress in our program. We evaluate academic growth every thirty-six hours with a progress test that is a nationally recognized test of achievement. Our approach to Supplemental Education is based on reliable research, common sense, and best practices. A minimum of 40 students per district must enroll in order for the program to begin.

Min. Number of Students (each district):	none
Cost to District (per hour):	48

Program Summary:

Sylvan Learning Centers have helped over two million students to develop academic skills so they can become confident and love learning. The first step is an individually administered diagnostic assessment to pinpoint skill gaps. These skill gaps form the educational prescription individually tailored to meet your child's needs. Instruction is done with a four to one student to teacher ratio. Sylvan teaches to mastery: we never go on to a new skill until the student masters a skill. Henry County No Child Left Behind students averaged 3/4 of a grade level increase in three months in the Academic Reading or Mathematics Essentials programs. Students attend the Sylvan Learning Center in their county twice weekly for two hour sessions. The NCLB program at Sylvan is the same program advertised on television. For more information, visit our web site at www.educate.com or call us at 404-518-1838. There is no "minimum" number of students for enrollment per school district.

Program Summary:

EDNA is an intervention program that identifies and accelerates at-risk readers in their reading abilities. Based on a set of strategic, flexible learning fundamentals, EDNA produces near perfect results. 98% of all children are reading at their grade placement by the end of third grade. It is important to understand that reading failure occurs not due to deficiencies in these children but rather because to programs fail to address specific road blocks inherent in these children. The EDNA technique is specifically designed for this group of at-risk readers in grades Kindergarten through 8th grade. It is a supplemental instructional reading program designed to accelerate students in their reading abilities. A minimum of 6 students per district must enroll in order for the program to begin.

Program Summary:

Terry Learning provides small group instruction in math and reading for children in grades K-12 who are performing below grade level. Our main goal is to help children in grades K-12 who live in the State of Georgia to perform above grade level in math and reading. Using certified and trained teachers from the schools and districts where Terry Learning serves, students will receive instruction 3-4 times a week. Programs will usually take place after school or on weekends running between 1.5 and 2 hours weekdays, and a maximum of 4 hours on weekends. Class sizes will be held to an average of 8 students to 1 instructor. Programs will be offered in the fall, winter, and spring primarily; however, a summer option is available. We generally offer our programs on the school sites, but on request we can offer our program at community centers. The "minimum" number of students is ten per district.

Program Summary:

Tutorial Services is a company that offers a web-based solution to students. We provide a FREE COMPUTER to those families that need one. We use Compass Learning as our tutoring program. Lessons are developed in reading and mathematics based on the child's needs. Instruction varies by how long each student needs to complete the activity. Since our program operates 24/7, your student can work anytime, day or night, as long as they can access the Internet. Our licensed teachers will monitor your student's assignments and report to you every four (4) weeks on their progress. We will use phone calls and mailed progress reports. As the 21st century moves forward, computers play a huge role in your child's education. We provide your son/daughter the tools necessary to be successful in tomorrow's world. Our slogan, "Making a Difference, One Student at a Time", is promise to you and your child.
