Mr. Forti discussed Joshua's Law which requires driver's education for teenagers. Mr. Forti also discussed the benefits of fundraising to SAE, such as the purchase of active boards for the classrooms. There is discussion about a possible new approach next year to fundraising. More information needs to be given to parents about how the funds are used to help the school.

Rob McKerrow discussed the progress of Sweet Apple Village. It was designed to be family friendly and is the first shopping center in Roswell to be approved for outdoor events. More occupants will open soon and a market is scheduled for once a month.

Fulton budget cuts will eliminate the crossing-guard at Hembree Road and Etris Road.

Writing scores went down. A writing committee will be formed and perhaps more writing will take place in TAG classes. Parents may request conference and review child's writing portfolio.

More efforts next school year will be placed on encouraging more involvement of dads in the PTA and classrooms.

Last LSAC meeting for 2008-2009 school year.
