Middle College expands the width and breadth of the district’s portfolio of schools, academic offerings, and post-secondary options by offering an alternative pathway to graduation where students graduate with a high school diploma and two technical college certificates.

COLLABORATION

In collaboration with Atlanta Technical College, Middle College ensures students reach their full potential equipped with the tools needed to successfully compete in high-wage, highly skilled, in-demand careers within their community.

QUALIFYING STUDENTS

Qualifying students take reduced number (nine) of academic courses required for graduation. The remaining coursework features in-depth training in specialized career fields. Students engage in workplace experiences to apply their academic and technical learning to real world projects.

Funds from Capital Plan 2022 will be used to completely renovate and transform the McClarin High School campus to accommodate FCS Middle College.

CONNECTION

Students attending Middle College navigate pathways connecting education, employment, and job readiness to develop their interests and talents while obtaining a solid grasp of the skills needed to survive in a fast-paced, global economy.

CURRICULUM

In collaboration with Atlanta Technical College, Middle College ensures students reach their full potential equipped with the tools needed to successfully compete in high-wage, highly skilled, in-demand careers within their community.

Funds from Capital Plan 2022 will be used to completely renovate and transform the McClarin High School campus to accommodate FCS Middle College.
