

# OSP Mobile Overview

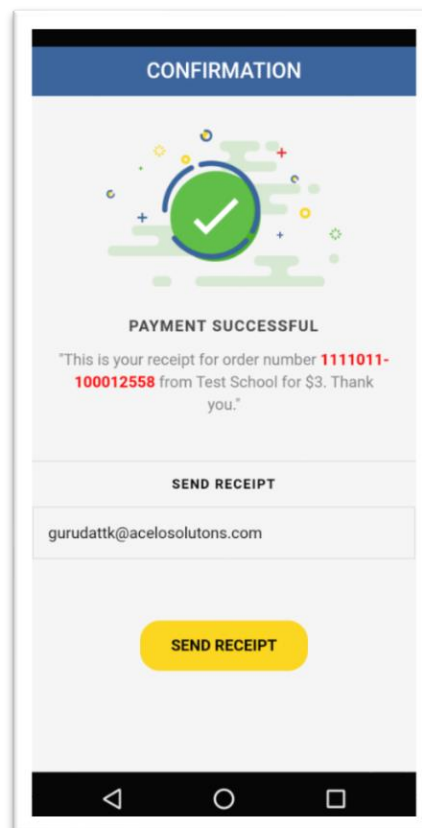

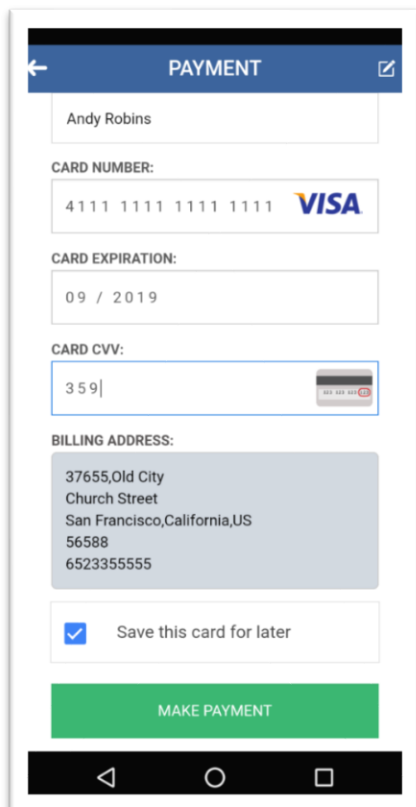

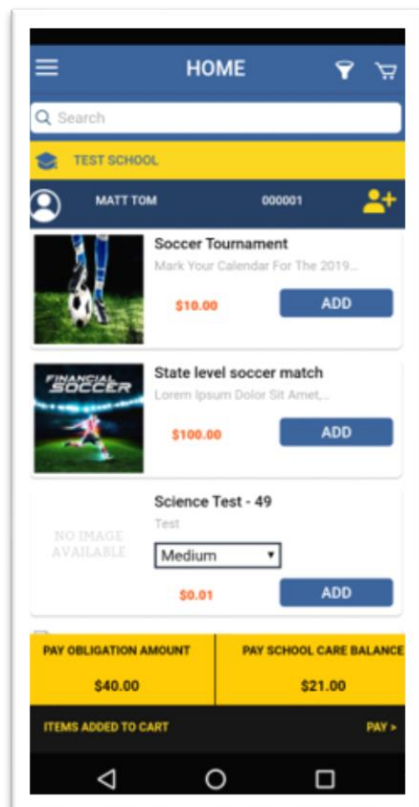

## OSP Enhancements for 2019

Online School Payments has been upgraded to now include a new Mobile App for parent use. All schools should be live by 7/1/2019.

### What's new

- **Mobile App** – Native mobile apps for iOS (Apple) and Android
- **OSI (Detailed Obligation) Integration** – Fees related to Detailed Obligations or Invoices will automatically display in the app for easy payment
- **OSC Integration** – Fees related to Online School Care will automatically display in the app for easy payment
- **Faster Transactions** – Credit cards can be saved for future use and the check out process has been streamlined. Your school can now process transactions quicker than before
- **Easy transition** – Parents can reuse their accounts from the older, browser based OSP. Accounts will share certain details, orders and more!

### OSP Mobile Examples
