

Spring Testing Survey Family Introduction

Survey Hyperlink: https://fultonschools.az1.qualtrics.com/jfe/form/SV_6IBLLIAWcYZYBJs

Sample Email or Written Letter:

Hello _____ Tri-Cities HS _____ students and families,

This year, Fulton County Schools (FCS) will continue to offer a variety of state and national assessments to help us better understand how our students are performing.

The State of Georgia is moving forward with administering the Georgia Milestones to all students in grades 3-8 and high school students taking Algebra I, US History, Biology, or American Literature (grade 11). The College Board has also announced multiple options for students to complete this year's AP Exams.

Please click here and complete this survey to help us prepare for spring testing. We would like to know if your child will participate in the Georgia Milestones and how he/she would like to take the AP Exams. We are also collecting information on student devices.

The survey deadline has been extended until April 2nd. Our goal is for ALL FCS students to respond to the survey, including those learning face-to-face and those learning remotely.

Please contact Dr. Lett, Principal or Dr. Sims, Testing Coordinator if you have questions or concerns.
