PBIS Rewards

Woodland Middle School understands the importance of supporting and motivating students and creating a positive school culture. PBIS is a school-wide positive behavior intervention that is used to support and motivate our students. As our students follow our PBIS matrix, throughout the school day, they receive points that are used as a criteria to attend PBIS celebrations.

Along with the students receiving points for following our school-wide PBIS matrix, without the teachers, the students wouldn't receive points. We recognize the top teachers, that have given out the most PBIS points, each week and each month. Our top 3 PBIS teachers for the month of February were Ms. A. Brown and Mr. Lattimore and Mrs. Dallas.
