# Kindergarten Enhanced Mathematics

A Fulton County Board initiative that provides all 8<sup>th</sup> graders with the opportunity to take Algebra I.

The Fulton County Board of Education is committed to the district's Strategic Plan goal of preparing all students to graduate ready to pursue and success on their chosen path. To ensure that students have multiple paths open to them, taking Algebra I prior to 9<sup>th</sup> grade provides opportunities for enrollment in higher level math courses in high school.

Fulton County is taking a slow, measured approach to achieve this goal by exposing students to a few key standards of the next grade level during the Kindergarten through Seventh Grade years.
