

2020 CENSUS

Let's get counted, Fulton!

The 2020 Census will count **EVERYONE** living in the United States as of April 1, 2020

The 2020 CENSUS is
EASY, SAFE, and IMPORTANT

EASY:

Respond online,
by phone, or
by mail

SAFE:

Your information
will not be
shared

IMPORTANT: Your

response
helps your
community

When is the Census?

- Look for a Census invitation in the mail in March.
- Make sure you respond!
- If you don't respond, a Census worker will come to your home starting in May.

For the first time, households will be able to complete the Census questionnaire online at 2020census.gov. You can respond from anywhere, at any time, using a mobile phone, tablet, laptop, or desktop computer. You just need to be connected to the internet.

You can contact the Census Questionnaire Assistance phone line to ask questions and to respond to the Census by phone by calling 1-844-330-2020. Callers can get more information on the Census, ask questions, and provide answers to their Census form by phone.

You can respond using the paper questionnaire. When responding, use blue or black ink to fill in the questionnaire. Do not use a pencil. If you need to make a correction to a response on your paper questionnaire, carefully draw a line through the incorrect entry. Then, write the correct information as close as possible to what you crossed out.

YOU MATTER! YOU COUNT!

Everybody counts. Don't leave anyone out!

- Babies and young children
- People living with you temporarily
- People living with you who are not relatives
- People living with you who were born outside the United States
- Senior citizens
- People with disabilities
