TO: All Offerors

FROM: Angela R. Young
Executive Director of Contracting

RE: RFP No. 153-19, Enterprise Resource Planning (ERP) Solution

Please see Addendum No. 5 for the above-referenced solicitation.
A. The following change has been made to the above-referenced solicitation:

   Add: 4/8/2019 Page 65A

B. All other terms and conditions remain the same.
Site Survey and Asset Tagging for Facilities Maintenance

The Offeror shall provide pricing, in a cost per square foot format, to survey all facilities and provide an equipment listing of the below listed equipment for the Facilities Maintenance module of the ERP system. This list will be used in the implementation phase as base data is built for the system. The Offeror shall provide bar coding of all the below listed equipment during the survey.

- Rooftop HVAC units
- Heat pumps
- Energy recovery units
- Cooling towers
- Boilers
- Water heaters
- Circulating pumps
- Emergency generators and switch gears
- Main electrical panels and all sub panels

The total square footage of all FCS facilities is approximately 17,000,000 square feet, which consists of fifty-nine (59) elementary school sites, nineteen (19) middle school sites, sixteen (16) high school sites and ten (10) non-school facilities.

The average size of the sites is as follows:

- Elementary schools: 115,153 square feet
- Middle schools: 172,004 square feet
- High schools: 303,134 square feet
