## SCHOOL PROFILE

Haynes Bridge Middle School was one of the first middle schools in the area, opening its doors in 1983. As a long standing middle school, it is a part of the community, now serving children of former students. Haynes Bridge prides itself on being an inclusive, safe, and positive place for everyone who enters the doors.

Haynes Bridge is a small middle school with less than 650 students each year and over 100 employees. In addition to the traditional middle school program, Haynes Bridge serves students in Gifted, ESOL, and four special education programs: Inter-related Services, Deaf and Hard of Hearing, Mild and Moderate Disabilities, and Georgia Network for Educational and Therapeutic Services.

At Haynes Bridge, the community is encouraged to exemplify the HBMS EAGLE characteristics of being Engaged, Accountable, Goal-oriented, a Leader, and Enthusiastic. Model students are acknowledged throughout the year for displaying these characteristics and supporting a positive school climate.

Haynes Bridge has a unique schedule for middle school students that allows for every child to reset in the middle of the day. There is an A/B Block schedule with five periods for day. The four academic periods each day are 80-minutes long and meet every other day. The fifth period of the day is called “Reset Block” and is 90-minutes in the middle of the day. This period is broken into three rotations with lunch, recess, and independent reading time. This is also a time where students can “recover” and make up missing work with a content specific teacher. This model reduces stress and increases productivity for the middle school student.
