

# UNDERSTANDING WRITE SCORE

## WHAT IS IT?

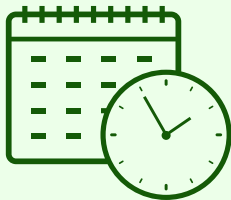

Write Score's Text-Based Writing Assessment is an online test that measures skills in writing standards as aligned to the state standards and the Part 1 (writing) section of the ELA Georgia Milestones. Each Write Score assessment includes grade-appropriate articles, multiple choice questions, a constructed response, and an extended writing task. The assessment will include one of the following writing genres: narrative, informational/explanatory, and opinion/argumentative.

## HOW IS IT USED?

Write Score provides schools with targeted data in overall reports and specific reports of students' writing proficiencies. ELA teachers use Write Score data and instructional materials and resources to determine areas of need and guide instructional decisions and support. Administrators can use the results to help see the performance and progress of a grade level, school, or the district. Write Score is not used as a part of a student's grade.
