This single-story school offers the same programmatic and site amenities found in all other Fulton County Schools prototypes. This design includes a large courtyard, which serves to expand the classroom teaching environment through hands-on activities to allow for an array of multi-disciplinary studies and development of student interests.

The school is organized with K-5 classrooms in two academic wings and the core functions—Media Center, Music, Gymnasium, Cafetorium and Administration Suite—located at the end of the building to allow for public functions.

### Quick Facts

- **Building size:** 111,939 S.F.
- **46 regular and 8 special classrooms**
- **Supports 862 FTE**

### Project Team

- **Architect:** Collins Cooper Carusi Architects
- **Contractor:** Balfour Beatty
This project is Phase 1 of a multi-phase school replacement. Phase 1 includes constructing the core academic spaces, of which the first and second floors will be occupied for school activities in August 2017. The project includes a newly constructed baseball field. Phase 1 will also begin to prepare the site for the construction of future phases, which will include the demolition of the existing school building and construct the new Cafeteria, CTE, Media Center, Performing Arts, and Athletic facilities of the new school.
