

September 2020

CENTENNIAL HIGH SCHOOL

Addition and Renovations Project Update

*This project is part of Capital Plan 2022
and funded by SPLOST,
the one-penny education sales tax*

Renovations Project Scope Summary

Centennial High School

Program Summary

- Black Box Theater addition
- Physical Education addition
- Video Broadcasting renovation
- Public Safety classroom, existing Black Box Theater repurposed, and Fine Arts classroom renovations
- Renovate and takeover of existing Physical Education booster building

Safety Systems

- Replace existing intercom system and connect to the existing Physical Education building
- Address radio communication system requirements for first responders throughout building

Mechanical System Improvements

- Replace HVAC system

Interior Aesthetic Improvements

- Painting
- Flooring replacement
- Acoustical ceiling replacement
- Casework replacements

Site Maintenance Improvements

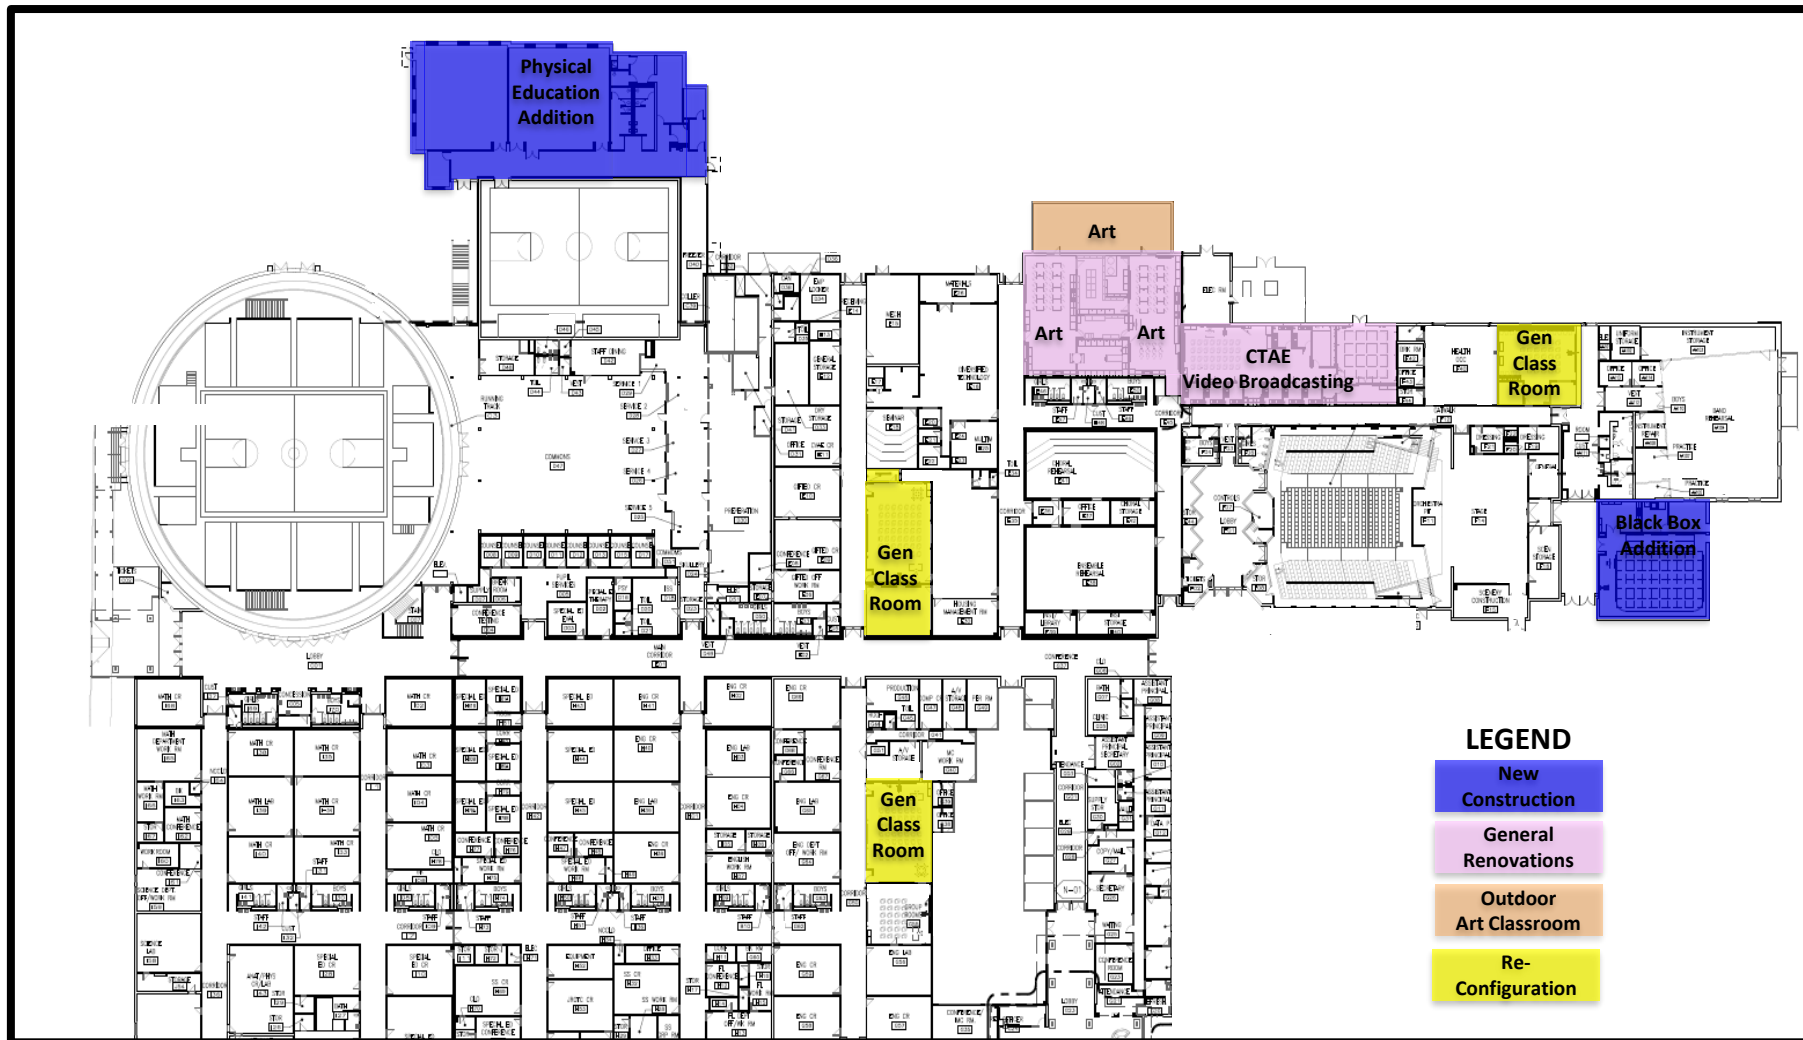

- Repairing and replacement of sidewalks and pedestrian walkways
- Modification to bus drop-off canopy

Note: Some other renovations and improvements were completed in a separate project in 2019. In 2018, we also replaced the synthetic athletic field turf and track.
