

Fulton County Schools Student Accounts

Fulton County Schools uses the Student ID for accessing all student accounts. New students' passwords are set to their birthdate in the format mmddyyyy. All other students should have a unique password that they created. **The same password is used for all student accounts and programs.**

Microsoft Office 365 Account: All students in FCS are given a school-safe Microsoft Office 365 account. This account can be accessed through the website, portal.office.com.

FCS Microsoft Email: StudentID@fcstu.org

This account is used for Team, One Note, Class Notebook, Word, PowerPoint & Excel. Check Outlook email daily for announcements from Cambridge & teachers!

Classlink: This dashboard allows students to access online textbooks, electronic databases, and other FCS-approved apps. The FCS devices default to Classlink when students open Chrome, but it can also be accessed through this website:

<https://launchpad.classlink.com/fcs>.

Username: **Student ID**

Infinite Campus Student Portal: Allows students to check their schedule and grades. From the Cambridge website, <https://www.fultonschools.org/cambridgehs>, select Campus Portal and then Campus Student.

Student Username: **Student ID**

Password Reset Tool: All students should go to <https://www.fultonschools.org/> and register their account with Reset Password (bottom of the home page). This allows students to unlock their account if they would happen to get locked out. They need to use studentid@fcstu.org when registering and unlocking.

Google Account: FCS Google Email: StudentID@fcsgaonline.org will no longer be used or available after October 2020. Please move any Google Docs, Sheets, or Slides that you want to keep ASAP.

Contact Mrs. Morgan, MorganL1@fultonschools.org, with questions.
