

# Introducing Challenge Island After School to CVES!

Challenge Island is a unique program that provides after school STEAM enrichment for elementary aged children right at your school! Each week students work in STEAM teams to conquer fun engineering challenges. Children have the opportunity to learn about exciting new concepts while also acquiring important team work and social emotional skills!

On this year's island, you and your STEAM Team will zip through the jungle's action-packed layers, taking on challenges inspired by the rainforest's awesome animal inhabitants - from playful monkeys to hungry jaguars to slithering anacondas- this magical island is a must for all kids who love animals and endless adventure!
