Yosef Mesfin, Founder of an investment Firm “Ace Capital investment Firm” and Trading team “forex guide”

Age: 17

The Business: Ace Capital Investment Firm provides weekly cashflow to investors of high capital. The minimum investment is $25,000 and the return on investment will be a percentage of the weekly profits. This is just a start up, but the future of this company is bright.

“Forex Guide” is a class I teach to people interested in learning how to trade on their own. I provide education as well as insight into what constitutes wise trading by examining the market daily. Participants in my class invest at least $250 of their own capital and trade it independently. My students average $100-600 in profits per week, depending on their initial investment. Tuition is $100 per month and the current enrollment is 15 students.

In 20 years, I will have...: an extremely profitable, national investment firm with offices in every state. I will employ other traders to manage those locations and will provide them the opportunity to earn a 50% profit share based on earnings from their offices. The goal of Ace Capital is to become a multibillion company and one day open an office on Wall Street.

As for “Forex Guide,” in 20 years I will have many success stories of my students who have quit their 9-5 jobs and become full-time traders. If some of the trades are good enough, they might get capital from me and go on to work for my company.

Best advice I’ve ever received: “Whenever you fall, fall forward.”
