Mrs. LaFon-7th Grade Life Science | Date: Thursday, April 2nd
---|---
Standard: | S7L4: Students will examine the dependence of organisms on one another and their environments.
Objective: | To determine mastery of the standards in Unit 6A.
Student Activity: | *All directions are posted on my website (see resources below).

1. Unit 6A Ecology Test from 11:00 am-12:00 pm using Forms
   - Students will go to [lafonscience.weebly.com](http://lafonscience.weebly.com)
   - Read the directions provided and students will click on their class period to begin.
   - This assessment is open-note! Students may use their study guide, online textbook or any other resources to complete the test.
   *Note: I understand that every student may not be able to complete the test during this allotted time. I will work with those students and figure out a time for them to complete the test after spring break. Furthermore, communication will be sent out later for any students unable to complete the test.*

2. After students complete the test, they may work on one of the choice activities below (if time allows):
   - Play a Game: [Build Food Chains](http://www.foodchains.com) & [Food Webs](http://www.foodwebs.com)
   - Read a science current event on [https://www.dogonews.com/](https://www.dogonews.com/)
