

SUMMER 2021 ENRICHMENT OPPORTUNITIES

These opportunities have been compiled by the IA counseling department for families to explore further for their students and are not specifically endorsed by FCS. We have had many families inquire about both in person and virtual opportunities separate from summer school for students to be engaged this summer as we prepare to return to school in August, especially in STEM activities and other learning opportunities! Volunteering and working as camp counselors, babysitters, lawn care, tutoring, or creating your own neighborhood camps for younger students are other ways to stay busy and give back to your community (and maybe make some money!) If you have any questions, please contact the programs directly through the weblinks.

Local Atlanta camps and programs

Milton Photography Camps

Fulton Science Academy Virtual Summer Camps

Virtual Camps, including STEM and SAT/College Prep

<http://fultonscienceacademy.org/summer-camps-2021/>

Camp H2O-Georgia Aquarium

Campers will spend the week engaged in fun and exciting activities! They will discover interesting facts about our aquatic friends and their habitats, as well as explore the wondrous ocean ecosystem. All Aquarium galleries and presentations are included. **Ages 5-13 (in person)**

<https://www.georgiaaquarium.org/booking/camp-h2o/>

Midtown International School

Virtual Camps!

Students in our middle and upper school summer programs collaborate to tackle real-world problems with their knowledge, skills, and strengths. Students choose from a variety of threads to prototype their unique solutions, including arts, engineering, coding, humanities, and movie-making. All summer programs for middle and upper grades include writing workshops and test prep opportunities.

Pre-College Programs:

Emory Pre-College Program

The Emory Pre-College Program is a summer academic program for high school students. It gives current sophomores and juniors an exciting glimpse of academic and residential life at a top-ranked national university. High school students may explore topics with professors who are the leading experts in their fields, whether for two or six weeks.

Over 30+ two-week [noncredit courses](#) will be available for students to enroll in classes with their peers.

Students wishing to earn credit alongside Emory undergraduates and earn transferable college credit will enroll in a six-week course through [Emory Summer College](#).

Summer 2021 Program

Our [two-week noncredit program](#) will be offered ONLINE ONLY. Two sessions, with both morning or afternoon class meeting times, will be available.

Six-week [Summer College credit courses](#) will be offered as well with the majority of classes being held online.

Clemson University Summer Scholars Program

Join us for an exciting week filled with learning, friendship, and the Clemson experience. There are virtual and in-person options. Educational, recreational, and cultural activities allow participants to experience some of the amazing opportunities Clemson University has to offer. Students will engage in hands-on, immersive courses in their field of choice taught by Clemson instructors during the day. Afternoons include free time which can be spent exploring campus, attending a campus tour, or meeting a representative from Admissions or Clemson University Honors College. Evenings feature many of the recreational activities Clemson students enjoy, including bowling at The Underground, swimming at Fike Recreation Center, and a cookout on the beach at beautiful Lake Hartwell. Participants stay in a residence hall and eat meals in a dining hall throughout the week to complete their on-campus experience. Current Clemson students serve as counselors to guide, mentor, and answer questions about life as a Tiger.

Rising 7th-12th grade students up to age 17 will enjoy this one-week introduction to college subjects while being immersed in the culture of Clemson University. If you have attended this program in the past, join us once again for a new course!

SOME WEEKS HAVE VIRTUAL OPTIONS

<https://www.clemson.edu/summer/summer-scholars/course-schedule.html>

PACE Summer Programs -University of Madison (VIRTUAL)

<https://wcaty.wisc.edu/>

Specifically designed for middle schoolers as an introduction to the college setting, PACE invites students to explore their interests in a week-long enrichment course devoted to a single subject.

Summer: July 5–9, July 12–16

HIGH SCHOOL: An intense, three-week course in a single subject area designed to push students to the next academic level, featuring community building and opportunities to connect with instructors. **Summer:** July 5–23

KSU Summer University

Calling all young artists, scientists, engineers, chefs, and creators! We're excited to welcome you back to the KSU Center for in-person day camps in 2021. Summer U is the place to be for fun and exploration. Our innovative camps are all about discovery-an opportunity for kids in rising grades 1-12 to dive into the topics that really interest them. We're bringing back all of your favorite camps, including Animal & Wildlife Expeditions,

Adulting 101, Comic Book Art & Manga, Extreme Science, LEGOS, Photography, Robotics, cooking camps, and many more!

UGA Summer Academy

Summer Academy at UGA programs are designed to let you live out your dreams. You can immerse yourself in any world you choose, from photography to video game design to comic book art. You'll work with experts in the field to get practical, hands-on experience, and receive helpful advice on how to get where you want to go.

We are bringing back old favorites, as well as some exciting new subjects, such as:

- Mini Medical School
- University Prep
- Journalism
- Video Game Design
- Debate
- Fashion Design
- Acting

They will have on-campus and online options.
