

## PRESS RELEASE

Atlanta, Georgia

April 7, 2023

For Immediate Release

### **Baseball Team Raises Awareness for Pancreatic Cancer**

SportsAware, LLC was designed to raise awareness for cancers via sports. The goal of the company is to get athletes representing cancer colors at sporting events.

As the high school baseball season comes to an end in Georgia, one special team in Sandy Springs, Georgia took time out to raise awareness for Pancreatic Cancer. The North Springs Charter High School Varsity Baseball Team wore purple sweatbands during the first game of their series against Centennial High School, while fans donned purple mardi gras beads and purple balloons. The whole night was about raising awareness and the announcer made several announcements about PurpleStride Atlanta coming up April 29th at Westside Park.

Why did the North Springs Charter High Varsity Baseball Team choose Pancreatic Cancer? They chose it because it is the world's deadliest cancer with a five-year survival rate of just 12 percent. It is also the third-leading cause of cancer-related deaths in America. In 2023, more than 64,000 people will be diagnosed with Pancreatic Cancer in the U.S., and more than 50,000 will die from the disease.

The Atlanta Affiliate of the Pancreatic Cancer Action Network (PanCAN) is bringing the community together to fuel progress for pancreatic cancer patients at PanCAN PurpleStride, the ultimate walk to end pancreatic cancer. PanCAN PurpleStride is a nationwide movement that funds life-changing programs and services for pancreatic cancer patients and their families.
