

Greetings to Shakerag Elementary School students, parents, and staff!

My name is In Hwang, a school-based mental health therapist. I am a National Certified Counselor (NCC) and an Associate Professional Counselor (APC). I have specialized in Play and Expressive Arts Therapy training to implement developmentally appropriate modalities to work with the younger population. I have worked in numerous settings to assist children and adolescents to grow as healthy individuals. I am passionate about understanding and processing the underlying issues of externalized behaviors/emotions that teachers and parents often encounter in daily life. My door is always open, and I look forward to meeting you all!

Best regards,
In Hwang, MS, APC, NCC
