

June 30, 2020

Greetings parents,

I hope all is well and you are enjoying time with your families during these trying times. I know you are receiving several pieces of information regarding Back To School and it can make us all a bit anxious. Please know that we are working vigorously behind the scenes to prepare a safe and healthy environment for our students. School will begin on August 17th for students. This is a change from the initial August 10th return date. We are working on our local school plans for our Face To Face return aligned to the information received at the Board Meeting on June 29, 2020. As we develop plans for our school, we will share information via Class Dojo, our school website and email. Our first priorities are to design systems and processes following the CDC and district guidelines to enable us to have a safe and healthy environment. While we are planning, we are encouraging everyone to think about what additional steps you will need to take as a family to stay healthy.

Examples:

If your preference is to wear masks as a family, begin to practice that strategy now with your child. How will you label your child's masks?

Begin to talk with your child about the sharing of personal items. As we will limit communal sharing as much as possible. It is natural for all of us to share, however, considering these times, this must be limited.

Begin to talk with your child about being safe in school and following the safety guidelines we will put in place. We will add safety signage throughout the building to help with this as well.

School visitations by non-school personnel and non-enrolled students will be very limited. Parents will be unable to access the building beyond designated entry points. (Front lobby/cafeteria). This will be different for us. Our drop off procedures, sign in procedures, lunch schedules/procedures will be different to help us all stay safe.

Many of our Back To School events will be virtual and/or online. This includes Sneak Peek/Open House, registration (which is also available by appointment), parent meetings etc.

Again, please know that we are working on the specifics for each area so that we have a safe environment and an efficient return to school. We will send information as we finalize it.

Thanks so much, in advance, for your support. We will get through this together and be stronger because of it!

We will continue to "Build Pathways To Success" for our Wolf PACK.

Stay tuned for updates. Please log in to hear district updates as often as possible.
