Georgia Beginnings

Mark Kilko and Mary Jean Stone

Learn about the geography, life, and culture of the different Indian groups who inhabited Georgia, from what is now the state of Georgia, to tribes who lived in what is now Alabama and South Carolina. Students will explore the human remains, tools, and artifacts from the different groups that lived in Georgia, and the ways they interacted with each other.

Second Grade

Who Put the Fizz in my Pop?

Barry Stewart Mann

In this comprehensive, informative, and often humorous presentation, young students learn about the history and chemistry of pop! Learn how carbonation, everything from club soda to soda pop, is used in our everyday lives. Students will make their own pop and experience the excitement of watching it sizzle with the addition of a secret ingredient. This program is one of the most admired American of his generation.
