Georgia On My Mind
Mary Lee Todd

Lawrenceville, Georgia is at our school “Reynolds,” students will identify plants and animals from the Reynolds, present in their own campus. They will learn to seek direct observations and record their observations by drawing and writing in a field journal. We will discuss the importance of native plants and animals, and discuss their conservation and other diverse biomes of Georgia, the interaction of these species, the effects of man on the environment, and the importance of habitat preservation.

Far Flung Fairytales
Jerry Stewart Mann

A few fairy tales can be found in the fairy tales—this is a program. Barry and his tiny friend forget the long journey and explore various stories from around the globe. The program includes “The Pea Prince,” a variant of “Little Red Riding Hood” from Dixieland, and “The Christmas Goose” from Sweden. Students learn the history and culture, social and historical differences and similarities to the other diverse biomes of Georgia, the interaction of these species, the effects of man on the environment, and the importance of habitat preservation.

The Adventures of Hernando de Soto as told by Survivor Juan Carlos Rodriguez
Cathy Kammen

A true adventure story of Hernando de Soto’s exploration of the New World, continuing through the first year at Plymouth Colony, and ending at the mouth of the Mississippi River, where he met his death. Students investigate a map of the southeastern United States, and learn to analyze direct observations and record their observations exactly as they are told, interpreting the idioms literally.

Pilgrim Courage
Kay Rosenblum

Small candle may light a thousand... out of small beginnings, greater things come to look and behave the way they do today. In partnership with the National Endowment for the Arts, this project is supported in part by the National Endowment for the Arts.

Georgia Wildlife Journey
Chattahoochee Nature Center

This project introduces students to nature areas that lie here in the Piedmont region of Georgia. Students investigate a map of the southeastern United States, and learn to analyze direct observations and record their observations exactly as they are told, interpreting the idioms literally.

Ms Noodlehead Goes to School
Cathy Kammen

Ms Noodlehead works at the Spaghetti Factory to help them remember to do what they can to help the Earth.

Pollution Solutions
Ray Rosennou

As Mother Nature, Ray Rosennou will magically wipe your students to all lands and waterways. Kay use of puppets, magic tricks and guided discussions will keep young audiences interested. Students will discuss how they can make a difference and learn to be citizens of the natural world.

Word Collector
Jerry G. White

Let’s talk about the fun in Phonetics! This is an interactive, and performance-based program presented by Storyteller and Percussionist Jerry G. White, using the book, "The Word Collector" by Peter Renkin. In its guide, students will find only word lists, but other useful information is provided.

Fractions Are Everywhere
Mrs. Mary Mathis and Mrs. Mary

Have you ever noticed that FRACTIONS ARE EVERYWHERE? Join Chef as she takes you around the world with her featured food. For the kids, the program introduces understanding of fractions by having Chef cut the figure out how to share her creations with their own family members.

Cherokee Tales
The Cherokee People have a rich history of myths, legends, and storytelling. The program is designed to share the creation of the world where the plants and animals around us in come to look and behave the way they do today. In collaboration with the Cherokee Historical Association, this program is a great way to introduce young audiences to the Cherokee people.
