Artful Stories at the Carlos Museum

A wonderful experience for pre-Kindergarten students, Artful Stories is a multi-layered educational program. The **program and buses** are offered **free** to FCS Pre-K classes through the generous funding support from the PNC Foundation in partnership with the Carlos Museum and the Teaching Museum.

Pre-K classes will travel to Emory University’s Carlos Museum to explore the galleries, hear a story, and enjoy hands-on art making—a great opportunity for students to experience art, literacy, and cultures of the world.

The program is open to pre-Kindergarten classes of 23 students or less, with a minimum of 1 chaperone/teacher for every 5 children. If your group has special needs, please let us know.

*This program is only available for Pre-K classes. Spaces are limited—so book now!*

Artful Stories Fall Program:
The Water Princess & the African Galleries
The story of Princess Gie Gie and her long daily trek for water is based on high-fashion model Georgie Badiel’s childhood experience growing up in Burkina Faso. After hearing the story and looking closely at a Makonde water vessel, a finely decorated clay vessel from Mozambique, children will head to the studio to make clay pinch pots. Proceeds from the sale of this book support the work of the Georgie Badiel Foundation, which builds wells in Burkina Faso and other countries in Africa.

Artful Stories Spring Program:
Spring Tour and Book to Be Determined
If you are interested, please register for the “SPRING PROGRAM” on the “click here” link below and select a date. We will update you on the content of the program once it is confirmed.
