Georgia On My Mind
Mary Lou Leavens

In a fun at school “bird trip,” students will identify and name animals, plants, birds, and butterflies present in the area. They will also observe different species of birds, mammals, and plants. Students will learn about the interdependence of species, the effects of pollution on the environment, and the importance of habitat preservation. Conservation and recycling, as well as the effects of human population growth, will be discussed.

Far Flung Fairytales
Barry Stewart Mein

Favorite fairy tales can be found in far-flung places in this program. Barry and Jan will bring fairy tales from the far-flung world to life in creative presentations of familiar stories from around the globe. The program includes “St. Pat’s Pic,” a comedic, Madigan-style presentation; “Once Upon a Time,” with musical and puppetry; and a recreation of “Tale of the Almighty Baloo,” a true story.

Georgia Wildlife Journey
Chattahoochee Nature Center

This program introduces students to animals that are native or have been brought to Georgia. Students will learn the importance of habitat preservation. Conservation and interdependence of species, the effects of man on the environment, and how to make a difference and learn a song to help them remember to do what they can to help the Earth.

The Adventures of Hernando de Soto as told by Survivor Juan Carlos Rodriguez
Cathy Kaemmerlen with Actor

A true adventure story of Conquistador Hernando de Soto who made it back to Spain, Rodriguez looks back on his times with de Soto, ranging from the struggle to start a new settlement and survive the first winter; the Mayflower voyage. Hear firsthand what it was like to spend 65 days at sea; the story of the first harvest feast. Performed as a first person narrative, in authentic period costuming: “One small candle may light a thousand...out of small beginnings, greater things have been done”.

Pilgrim Courage
Cathy Kaemmerlen

Pollution Solutions
Kay Rosencrantz

At Nature Nature, Kay Rosencrantz will magically whisk your students off all 14 regions of Georgia to look for signs of pollution and its impact. Kay will “move” around Georgia’s environments and its pollution and peel away. Kay’s use of puppets, songs, tricks and guided improvisations will make conservation and learning fun. Finally, students will discover how they can make a difference by using a song to help them remember what they can to help the Earth.

Word Collector
Jerry G. White

Literacy with the concentration on Phonetics, interactive, and performance based program presented by3rd Grade.

Ms Noodlehead Goes to School
Cathy Kaemmerlen

Ms. Noodleneck walks at the Sparklight Factory. But she continues to bring fun and get things done. Ms. Noodleneck puts in a good word for Ms. Noodlehead gives a great presentation. Ms. Noodleneck is a great audience member, using a list of idioms. Once again, the class cracks up and learns how to use idioms.

Fractions Are Everywhere
Neha Bharti and Jan Jenson

Have you ever noticed that FRACTIONS ARE EVERYWHERE? Can you give us an example? This lesson will teach the students the importance of fractions with the fractions lesson. When the Dietetic students develop an understanding of fractions by helping Jan and Neha figure how to create recipes with fractions with their classmates with Ms. Noodlehead's help.
