FVS Chinese 2A Syllabus

Course Description

In this course, students begin their introduction to Chinese with fundamental building blocks in four key areas of world language study: listening comprehension, speaking, reading, and writing. The course consists of 88 lessons formatted in an intuitive calendar view. As students begin the course, they construct their own Avatar that accumulates “Avatar bucks”—by performing well on course tasks—to use or purchase items (clothing, gadgets, scenery, etc.) at the “Avatar store”. Each week consists of an ongoing adventure story, a new vocabulary theme and grammar concept, numerous interactive games reinforcing vocabulary, grammar, reading and listening comprehension, speaking and writing activities, and multimedia cultural presentations covering major Chinese-speaking countries and cultures. The course has been carefully aligned to national standards as set forth by ACTFL (the American Council on the Teaching of Foreign Languages) and Fulton County Schools Power Standards.

Course Objectives

The goal of the Fulton County Schools World Languages department is to guide students in their mastery of the national performance standards, adopted by the State of Georgia. For Modern Languages, these standards consist of “The 5 Cs”:

Culture: Students will learn about target culture products, practices and perspectives.

Connections: Students will connect aspects of their target language learning with information acquired in other subject areas such as math, science, social studies, English and the arts.

Comparisons: Students will demonstrate an understanding of the nature of language and culture, making comparisons between those of the target language and their own.

Communities: Students will find and engage in the target language outside of the school environment and show evidence of building a life-long skill for their own personal enjoyment and enrichment.

Fulton County Schools Grade Recovery Policy

Opportunities designed to allow students to recover from a low or failing cumulative grade will be allowed when all work required to date has been completed and the student has demonstrated a legitimate effort to meet all course requirements including attendance. Students should contact the teacher concerning recovery opportunities. Teachers are expected to establish a reasonable time period for recovery work to be completed during the semester. All recovery work must be directly related to course objectives and must be completed ten school days prior to the end of the semester.

The Fulton Virtual School’s policy is to allow students to work at an individualized pace in the course. You are expected to work at your own pace and have the course finished by the last day of the class.
