

EasyTech Student Guide

EasyTech Keyboarding is a program offered by learning.com. K-5 students use this program to complete lessons that are assigned by a teacher.

Login to EasyTech

1. On a computer go to <https://launchpad.classlink.com/fcs>
On a mobile device download the **ClassLink Launchpad** app from the store. The first time you launch the app it will ask you for the name of the school district. Type **Fulton**.
2. In the username box enter student ID#. Elementary students' password is their birthday in this format: MMDDYY

3. Once logged into Classlink, click the learning.com

icon.

4. If students have lessons to complete, they will show on the main screen.
