

## Office of Grant Development

The Office of Grant Development is responsible for securing grant funding to support strategic initiatives and on-going work by prospecting with funders, providing consultative support to schools for grant development, and writing grant proposals. Philanthropic outreach with community and business partners prioritizes funding opportunities aligned with 2022 *Strategic Plan*.

### Key Objectives:

- ▶ Drive critically needed resources to schools to meet goals of the Strategic Plan
- ▶ Support Grant Development in local schools through the Grant Champions Program
- ▶ Build capacity to sustain grant funded efforts in the long term

*Fulton County Grant Champions help build capacity to develop competitive grant proposals and secure funding for innovative and unique programs for their school. Grant Champions serve as their school's grant liaison and receive valuable training and professional development to find potential funding resources from corporate and private foundations, local businesses, civic organizations, faith based organizations and community service groups. Participating in the Grant Champions Program is an excellent opportunity to build grant development skills and secure additional funding for schools.*
