

EasyTech Student Guide

EasyTech Keyboarding is a program offered by learning.com. Students use this program to complete lessons that are assigned by a teacher.

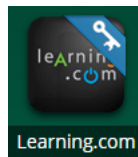

Google Chrome is recommended. Students can access EasyTech on a variety of devices. For more information about technical specifications, please visit: <https://tinyurl.com/fcsdigitalresourcetechspecs>

Login to EasyTech

1. On a computer go to <https://launchpad.classlink.com/fcs>
On a mobile device download the **ClassLink** app from the store. The first time you launch the app it will ask you for the name of the school district. Type **Fulton**.
2. In the username box enter student ID#. Elementary students' password is their birthday in this format: MMDDYY

3. Once logged into Launchpad, click the learning.com icon.

4. If students have lessons to complete, they will show on the main screen.
